Important Questions	Answers	Why This Matters
What is the overall deductible?	In-Network: Tier 1: $250 member/ $500 family Tier 2: $2,000 member/ $4,000 family Tier 3: $3,500 member/ $7,000 family Out-of-Network: $5,000 member/ $10,000 family Benefits are administered on a calendar year basis.	Generally you must pay all the costs up to the deductible amount before this plan begins to pay. If you have other family members on the policy, they have to meet their own individual deductible until the overall family deductible amount has been met.
Are there services covered before you meet your deductible?	Yes. Emergency room care, emergency medical transportation, and the following In-Network services: preventive care, provider office visits, outpatient mental health services, Rehabilitation services, Habilitation services, durable medical equipment, routine eye exams, the following Tier 1 services: day surgery, Non-hospital based diagnostic tests and imaging, and the following Tier 2 services: Non-hospital based diagnostic tests and imaging are covered before you meet your deductibles.	This plan covers some items and services even if you haven't yet met the deductible amount. But, a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost sharing and before you meet your deductible. See a list of covered preventive services at **https://www.healthcare.gov/coverage/preventive-care-benefits/**
Are there other deductibles for specific services?	No.	You don't have to meet deductibles for specific services.
What is the out–of–pocket limit for this plan?	In-Network Tier 1: $3,000 member/ $6,000 family Tier 2: $4,500 member/ $9,000 family Tier 3: $4,500 member/ $9,000 family Out-of-Network: $6,000 member/ $12,000 family Benefits are administered on a calendar year basis.	The out-of-pocket limit is the most you could pay in a year of covered services. If you have other family members in this plan, they have to meet their own out-of-pocket limit until the overall family out-of-pocket limit has been met.
